K) FORCE MAJEURE

Time being the essence of the contract, if either party is prevented from the Performance of its obligations in whole or in part for reasons of Force Majeure, viz acts of God, acts of Government, acts of Public enemy, war, hostility, civil commotion, sabotage, fire, flood, explosion, strike, and lawful lockout, then provided notice of happening of any such eventuality is given by the effected party to the other party immediately & maximum within 15 days from the date of occurrence and cessation of the force majeure, the period of Force Majeure shall be excluded accordingly.

If the Force Majeure event(s) continue beyond the period of 3 months, the parties shall hold consultation to chalk out the further course of action. Neither party can claim any compensation from other party on account of Force Majeure.

L) ARBITRATION

- a) All Disputes or differences, whatsoever, arising between the parties out of or in relation to the construction, meaning and operation or effect of this Contract or breach there of shall be settled amicably. If, however, the parties are not able to resolve them amicably, the same shall be settled by arbitration in accordance with the Rules of Arbitration of the Indian Council of Arbitration as per the provision of Arbitration Conciliation Act 1996 and the award made in pursuance thereof shall be binding on the parties. The Arbitrator /Arbitrators will give reasoned award.
- b) Work under the contract shall continued by the Bidders during arbitration proceeding unless otherwise directed in writing by HEC/BSL or unless the matter is such that work cannot be continued until decision of the arbitrators or of the umpire , as the case may be, is obtained and save as those which are otherwise expressly provided in the contract, no payment due or payable by the purchaser shall be withheld on arbitration proceeding unless it is the subject matter or on the subject matter thereof.
- c) The Venue of arbitration shall be Ranchi, Jharkhand

M) RISK AND COST

If the bidders fail to complete the work and comply with notice given in this regard within the period as considered reasonable for such compliance from the date of serving the notice, then in such case without prejudice to purchasers right under this clause the purchaser shall have at his option to take the affected work wholly or in part out of the bidder's hand and may complete the work at a reasonable price with 22.5% overhead expenditure at the risk & cost of the bidders.

04.22 Painting:

Annexure-B

All cranes will be painted as per specification prior to dispatch. Necessary surface cleaning by mechanical power tools as well as blast cleaning of the surface required will be done before painting. The equipment has to be painted with requisite grade of primer and intermediate paint prior to dispatch. Necessary heat resistant, anti corrosive and special paints have to be applied as per requirement. The detail painting procedure to be followed by the Contractor has been indicated in General Technical Specification (GTS). However following will also be considered for painting of cranes:

- i) All parts of the crane will be thoroughly cleaned of all mill scales, rust or foreign matters and then painted as specified. The surface cleaning will conform to Indian Standard/ Swedish Standard/ DIN standard.
- ii) All parts of the crane (except motors, resistors, gears, thrusters etc.) will be painted at shop with one primer coat of PVC copolymer alkyd resin with red oxide/ zinc chromate.
For corrosive atmosphere all surfaces will be coated with two (2) coats of Epoxy Zinc based on zinc dust.
- iii) Interior of all gear housing will be painted with oil resistant paint.
- iv) All machine pads, bearing surfaces on structure or housing will be painted with white lead.
- v) All parts inaccessible after assembly will be painted before and assembled while paint is still wet.
- vi) After erection the damaged portion of the painted surfaces will be retouched and then one intermediate coat of PVC copolymer alkyd resin will be applied. The colour will be as per choice of the Purchaser.
- vii) Subsequently one final coat of PVC copolymer alkyd with weather resistant pigment (approved by Purchaser) and glossy finish will be applied.
- viii) The detail of dry film thickness (DFT) of the different coats will be as follows:
 - a) Primary coat = 30-40 micron/coat
 - b) Intermediate coat = 70-80 micron/coat
 - c) Final coat = 40-50 micron/coat
- x) The buffer and hook block of the crane will be painted with yellow base and 100 mm wide black zebra strips at a gap of 100 mm at 30° inclinations.
- xi) Colour scheme will be as approved by the Purchaser.

The colour code for electrical equipment will be as per clause no. 06.04.27 of this Contract Technical Specification.
