**INSTRUCTIONS TO TENDERER (ITT)**

**All bidders are requested to go through the all parts of Tender Document very carefully in detail before submitting the offer.**

**1.0 Offer has to be submitted only online at E-tender Portal: [www.etenders.gov.in](http://www.etenders.gov.in). Offers submitted in Hard copy shall not be considered, however tender Cost, Earnest Money Deposit (Original Demand Draft/bank Guarantee) may be submitted to us in hard copy. Scan copy of tender Cost & EMD to be uploaded in part-1 of offer i.e technocommercial bid.**

**2.0** Prospective Tenderers are advised to get register themselves only on at NIC e-tender portal i.e. <https://etenders.gov.in/eprocure/app>, obtain 'User ID' & 'Password' and go through the 'Self Help files' available in the Home Page after log in to the portal <http://etenders.gov.in>. They should also obtain Class III Digital Signature Certificate (DSC) in parallel which is essentially required for submission of their application. Detailed instructions for online bid submission are attached in **annexure-3**. No registration fee would be charged from the bidders.

**NOTE:**

- i. Please note that there is no provision to take out the list of parties downloading the tender document from the above referred web site. As such, tenderers are requested to see the website once again before due date of tender opening to ensure that they have not missed any corrigendum uploaded against the said tender after downloading the tender document. The responsibility of downloading the related corrigenda, if any, will be that of the downloading parties.
- ii. No separate intimation in respect of corrigendum to this NIT( if any ) will be sent to tenderers who have down loaded the documents from website. Please see website i.e., <http://www.hecltd.com> or <http://www.etenders.gov.in>
- iii. HEC reserves the right to extend / change the schedule of any activity by intimating the bidders through a notification on the e-tender portal only.

The Following two covers shall be submitted through online CPP - portal by the bidders. Last date and time of submission of bids (cover I, II) is as per given dates. **No other modes of bid submission is acceptable.**

Cover – I: - Containing techno-commercial bid and Technical Specification ( As per ITT, Enclosure-I (Commercial terms & Conditions) and Enclosure-II (Technical Specification ))

Scan copy of documents to be uploaded required as per Annex- 1 – Proof of Tender Fee submission document (DD/BG/NEFT/RTGS), SSI/NSIC/MSME certificate (for exemption of tender fee) and other relevant documentary evidence (PO copy, performance certificate etc.)

**3.0 Cover - II: Price Bid (BoQ)**

The tenderer shall upload the digitally signed Schedule of price bid in the form of BOQ.xls *Bidders may please note, the schedule of quantities is attached in the portal. The same (BOQ) shall be downloaded and be filled in the editable (un protected) cells only and they should necessarily submit their financial bids in the format provided after entering the financial quotes, name of the bidder etc.*

**4.0 Bid Opening Process is as below:-**

Cover-I: Technical bid opening date will be as per given dates. If any clarification is needed from the bidder about the deficiency in his uploaded documents in Cover-I, the bidder will be asked to provide it through Short fall documents folder in e-tendering portal. The bidder shall upload the requisite clarification / documents within time specified by HEC, failing which tender will be liable for rejection. Cover-II: The financial bids of the contractors / firms

## HEAVY ENGINEERING CORPORATION LIMITED

### PROJECT DIVISION

found to be meeting the qualifying requirements and technical criteria shall be intimated through portal. (Depending on Cover-I evaluation any changes in the date shall be intimated through e-tendering portal).

**5.0 Earnest Money Deposit –** The offers submitted shall be considered valid only when scan copy of EMD document .The scan copy of EMD document in form of DD/BG/Receipt of NEFT/RTGS have to be uploaded with the Techno- Commercial bid (Part 1) only.

Fax. No. 0651-24015  
Ph. No. 0651-2401266 / 2400562

**Refund of EMD:** The Earnest Money will be retained in the case of successful tenderer. The Earnest Money deposited by the successful bidder will be refunded on receipt of required Security Deposit from the bidder. EMD of the unsuccessful tenderers shall be refunded immediately after finalization of the tender. EMD shall be forfeited if any tenderer withdraw their offer before finalization of the tender.

**6.0 Tender Fee of Rs. 200/-** in the form of Demand Draft in favour of Heavy Engineering Corporation Ltd., payable at Ranchi

- a) Tenders not accompanied with Tender Fee shall be liable for rejection.

Exemption of Tender Fee shall be applicable on submission of valid SSI/NSIC/MSME certificate and as per prevailing govt guidelines. SSI/NSIC/MSME Certificate to be uploaded in Techno Commercial Part 1.

**Note:**

**The tender fee and EMD exemption is applicable to MSMEs subject to conditions given below:**

- i. MSMEs participating in the tender must submit valid & authorised copy of certificate of registration with any one of the above agencies. In case of bidders submitting DIC registration certificate shall attach original notarised copy of the DIC certificate. The MSME's Bidder to note and ensure that nature of services and goods/items manufactured mentioned in MSME's certificate matches with the nature of the services and goods /items to be supplied as per Tender.
- ii. Traders / resellers / distributors / authorized agents will not be considered for availing benefits under Public Procurement policy 2012 for MSMEs as per MSME guidelines issued by MoMSME.
- iii. The registration certificate issued from any one of the above agencies must be valid as on Bid closing date of the tender. Bidder shall ensure validity of registration certificate in case

bid closing date is extended.

- iv. The MSMEs who have applied for registration or renewal of registration with any of the above agencies / bodies, but have not obtained the valid certificate as on close date of the tender, are not eligible for exemption / preference.
- v. Where any aggregator has been appointed by the Ministry of MSME, themselves quote on behalf of some MSE units, such offers will be considered as offer from MSE units and all such facilities would be extended to these aggregators also.

### **7.0 Examination of Terms & Conditions- Technical Evaluation**

Any bidder seeking benefit/preference under MSME / Make in India or any other policy/scheme of the Government of India, which is currently in force MUST at the time of bidding itself enclose all relevant documents / certificates etc. for claiming such benefits. The bidder must also clearly highlight the provisions of the policy and the kind of benefit being sought by it for which it meets the conditions for claiming such benefits. It may be noted that no other benefit / preference / concessions which is beyond the scope of the policy or the bidder's entitlement under the policy shall be given / considered by us. If the bidder fails to claim such benefit and/or fail to submit necessary documents/certificates in support of its claim at the time of bidding itself, its claim shall not be entertained at a later stage in the bidding process and no opportunity shall be provided to it to submit any document / certificate.

### **7.1 Evaluation and comparison of bids**

The bids shall be evaluated on the basis of final landed cost which shall be arrived as under and as per format given in BOQ of e-Tender:

#### **For Goods manufactured within India**

i)	The price of the goods quoted Ex-works
ii)	GST which will be payable on the goods if the contract is awarded.
iii)	The charges for inland transportation, insurance and other local services required for delivering the goods at the desired destination as specified in the BOQ.
iv)	The installation, commissioning and training charges including any incidental services, if any as given in Scope of Works of NIT
v)	Deviation to NIT payment terms.

**The comparison between the offers shall be made on FOR destination on Landed cost basis.**

**Price preference to Local suppliers as per Make in India procurement policy of Govt. of India and Department for Promotion of Industry and Internal Trade (DPIIT) order No. P-45021/2/2017-PP (BE-II) dated 04th June, 2020**

#### **A. Eligibility of 'Class-I local supplier', 'Class-II local supplier' and 'Non-local supplier'**

- i. Only Class-I local suppliers are eligible to participate in tender if there is sufficient local capacity and local competition irrespective of the purchase value. L1 bidder amongst Class-I local suppliers shall be awarded contract subject meeting other requirements as per tender.
- ii. In procurement of all goods or services not covered above, with the estimated value of purchases less than Rs. 200 Crore, only 'Class-I local supplier' and 'Class-II local supplier', shall be eligible to bid.

#### **B. Estimated value of procurement of tendered goods is below Rs. 200 Crore and it is not a Global Tender:**

- i. **Tendered goods are not divisible in nature, the following procedure shall be followed to evaluate L1 and award of contract:**
  - a. Among all qualified bids, the lowest bid will be termed as L1. If L1 is from a Class-I local supplier, the contract will be awarded to L1.
  - b. If L1 is not from a Class-I local supplier, the lowest bidder among the Class-I local

# HEAVY ENGINEERING CORPORATION LIMITED

## PROJECT DIVISION

suppliers, will be invited to match the L1 price subject to local supplier's quoted price falling within the margin of purchase preference, and the contract shall be awarded to such local supplier subject to matching the L1 price.

- c. In case such lowest eligible Class-I local supplier fails to match the L1 price, the Class-I local supplier with the next higher bid within the margin of purchase preference shall be invited to match the L1 price and so on and contract shall be awarded accordingly. In case none of the Class-I local suppliers within the margin of purchase preference matches the L1 price, then the contract may be awarded to the L1 bidder.

**For more clarity in this regard, following table is furnished:**

Quantity of Tendered goods	Price quoted by Local suppliers	Finalization of tender
Cannot be Split	L1 is Class-I local supplier	Full Order on Class-I Local supplier
Cannot be Split	Not L1 but Class-I local supplier within L1+20%	Full Order on Class-I Local supplier subject to matching L1 price

Definitions of terms applicable to this clause

'Local content ' means the amount of value added in India which shall be the total value of the item procured (excluding net domestic indirect taxes) minus the value of imported content in the item (including all customs duties) as a proportion of the total value, in percent.

'Class-I Local supplier' means a supplier or service provider whose goods or services offered for procurement, has local content equal to or more than 50% .

'Class-II local supplier' means a supplier or service provider, whose goods or services offered for procurement, has local content equal to or more than 20% but less than 50%.

'Non-Local supplier' means a supplier or service provider, whose goods or services offered for procurement, has local content less than or equal to 20%.

'L1' means the lowest tender or lowest bid or the lowest quotation received in this tender, bidding process or other procurement solicitation as adjudged in the evaluation process as per the tender or other procurement solicitation .

'Margin of purchase preference' means the maximum extent to which the price quoted by a Class-I local supplier may be above the L1 for the purpose of purchase preference.

### **C. Verification of local content**

- The 'Class-I local supplier'/ 'Class-II local supplier' at the time of tender, bidding or solicitation shall be required to provide self certification that the item offered meets the minimum local content and shall give details of the location(s) at which the local value addition is made. **(Annexure-5)**
- In cases of procurement for a value in excess of ₹ 10 crores, the local supplier shall be required to provide a certificate from the statutory auditor or cost auditor of the company (in the case of companies) or from a practicing cost accountant or practicing chartered accountant (in respect of suppliers other than companies) giving the percentage of local content.
- False declarations will be in breach of the Code of Integrity under Rule 175(1)(i)(h) of the General Financial Rules for which a bidder or its successors can be debarred for up to two years as per Rule 151 (iii) of the General Finance Rules along with such other actions as may be permissible under law.
- A supplier who has been debarred by any procuring entity for violation of the order of the Department for Promotion of Industry and Internal Trade (DPIIT) order No. P-45021/2/2017- PP (BE-II) dated 04th June, 2020 shall not be eligible for preference under the said order for procurement by any other procuring entity for the duration of the debarment. The debarment for such other procuring entities shall take effect

prospectively from the date on which it comes to the notice of other procurement entities, in the manner prescribed in the order of the Department for Promotion of Industry and Internal Trade (DPIIT) order No. P- 45021/2/2017-PP (BE-II) dated 04th June, 2020.

**D. “Class-II local supplier” will NOT get purchase preference in any procurement.**

#### **8.0 PERIOD OF VALIDITY OF TENDER**

Unless otherwise specified, the Tenderer shall keep his tender valid initially for a period of 120 days from the due date of opening of the tender.

#### **9.0 LANGUAGE**

The Tender shall be submitted in English language.

#### **10.0 NO CLAIM OR COMPENSATION FOR SUBMISSION OF TENDER**

The Tenderer whose Tender is not accepted shall not be entitled to claim any costs, charges, expenses of and incidental to or incurred by him through or in connection with his submission of Tenders, even though HEC Ltd may decide to withdraw the Invitation of Tender.

#### **11.0 INCOME TAX / SALES TAX CLEARANCE CERTIFICATE / PAN**

The Tenderer shall furnish the Income Tax Clearance Certificate, Sales Tax Clearance Certificate and copy of PAN with the tender duly countersigned by the respective officer under the seal of the office. Failure to produce the requisite certificate with tender, their quotation is liable to be rejected.

#### **12.0 CONFIDENTIALITY**

Tenderer shall note that all data/drawings/specifications enclosed with Tender document is confidential. Tenderer shall keep all data/drawings in strict confidence and shall not copy or pass on any of the Tender papers etc. to any third party. Tenderer shall return the Tender documents alongwith the Tender.

#### **13.0 NOTICES ON BEHALF OF HEC LTD**

Notice and Certificate on behalf of HEC LTD in connection with the Purchase Order may be given by duly authorised officers of HEC LTD. Any modification which may become necessary in the interim period will be intimated to you as soon as possible.

#### **14.0 PURCHASER's RIGHT TO ACCEPT ANY BID AND TO REJECT ANY OR ALL BIDS**

The Purchaser reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids at any time prior to award of contract, without thereby incurring any liability to the affected Bidder or bidders or any obligation to inform the affected Bidder or bidders of the grounds for the Purchaser's action.

**15.0 Tenderer to note that procurement shall be done on PACKAGE BASIS** i.e L-1 firm will be decided based on combined lowest landed value for all tendered items by adding individual quoted values for all respective items and purchase order will be awarded to overall L-1 firm on **Package basis**. In case there is deviation against NIT Payment term, loading as mentioned at note of clause 6.0 of commercial term will be applicable to arrive at L-1 firm.

#### **16.0 General conditions of the contract :**

**Unless otherwise specified in the Terms & Conditions above, this order shall be governed by General conditions of contract of purchase of HEC Ltd, which is available in the web site of HEC.(www.hecltd.com):**

**Note:-**

- 1. As per the govt. Guidelines it is to be specified clearly in your offer whether your firm is registered with SSI/NSIC/MSME and also confirm whether the firm is owned by SC/ST Entrepreneurs or not.**
- 2. Pl. provide UAM no to avail Facilities of MSME.**
- 3. Please get registered your firm with HEC Ltd.**

(Signature of Tenderer with seal)

**Annexure - 2**  
**PART-II (Price Bid)**

1. The tenderer shall upload the digitally signed Schedule of price bid in the form of BOQ.xls
2. Bidders may please note, the schedule of quantities is attached in the portal. The same (BOQ) shall be downloaded and to be filled in the editable (un protected) cells only and they should necessarily submit their financial bids in the format provided after entering the financial quotes, name of the bidder etc.
3. Bidders to note that the price as per the offer is strictly to be mentioned under Part-II of Price bid and not to be disclosed in any manner under techno-commercial bid Part-I ,In case price of the bidder is disclosed under techno-commercial bid Part-I , the offer of the firm will be summarily rejected.
4. If any item of BOQ is not quoted then offer of the firm **shall not be considered** as procurement is on **PACKAGE BASIS**.

**Annexure 3**  
**Instructions for Online Bid Submission**

*The bidders are required to submit soft copies of their bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.*

*More information useful for submitting online bids on the CPP Portal may be obtained at: <https://eprocure.gov.in/eprocure/app>.*

**REGISTRATION**

- (i) Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL: <https://etenders.gov.in/eprocure/app>) by clicking on the link "Online bidder Enrollment" on the CPP Portal which is free of charge.
- (ii) In case of any clarification please contact M/s NIC, before the schedule time of the submission of bid.
- (iii) As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
- (iv) Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
- (v) Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (Class II or Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g. Sify / nCode / eMudhra etc.), with their profile.
- (vi) Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to  
*ensure that they do not lend their DSC's to others which may lead to misuse.*
- (vii) Bidder then logs in to the site through the secured log-in by entering their user ID / password and the password of the DSC / e-Token.

**SEARCHING FOR TENDER DOCUMENTS**

- i) There are various search options built in the CPP Portal, to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.
- ii) Once the bidders have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.
- iii) The bidder should make a note of the unique Tender ID assigned to each tender, in

case they want to obtain any clarification / help from the Helpdesk.

**PREPARATION OF BIDS**

- i) Bidder should take into account any corrigendum published on the tender document before submitting their bids.
- ii) Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.
- iii) Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS / RAR formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.
- iv) To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use "My Space" or "Other Important Documents" area available to them to upload such documents. These documents may be directly submitted from the "My Space" area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

**Note:** My Documents space is only a repository given to the Bidders to ease the uploading process. If Bidder has uploaded his Documents in My Documents space, this does not automatically ensure these Documents being part of Technical Bid.

**SUBMISSION OF BIDS**

- i) Bidder should log into the site well in advance for bid submission so that they can upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
- ii) The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.
- iii) Bidder has to select the payment option as "offline" to pay the tender fee / EMD as applicable and enter details of the instrument.
- iv) Bidder should prepare the EMD as per the instructions specified in the tender document. The original should be posted/couriered/given in person to the concerned official, latest by as specified in the tender documents. The details of the DD / any other accepted instrument, physically sent, should tally with the details available in the scanned copy and the data entered during bid submission time. Otherwise the uploaded bid will be rejected.
- v) Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. If the price bid has been given as a standard BOQ format with the tender document, then the same is to be downloaded and to be filled by all the bidders. Bidders are required to download the BOQ file, open it and complete the white coloured (unprotected) cells with their

respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BOQ file is found to be modified by the bidder, the bid will be rejected.

- vi) The server time (which is displayed on the bidders' dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.
- vii) All the documents being submitted by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128 bit encryption technology. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key. Further this key is subjected to asymmetric encryption using buyers/bid openers public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized bid openers.
- viii) The uploaded tender documents become readable only after the tender opening by the authorized bid openers.
- ix) Upon the successful and timely submission of bids (i.e. after Clicking "Freeze Bid Submission" in the portal), the portal will give a successful bid submission message & a bid summary will be displayed with the bid no. and the date & time of submission of the bid with all other relevant details.
- x) The bid summary has to be printed and kept as an acknowledgement of the submission of the bid. This acknowledgement may be used as an entry pass for any bid opening meetings.

#### ASSISTANCE TO BIDDERS

Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.

Performance & Guarantee Test	Refer Technical Specification (Enclosure- II)
Site Engineer	Engineer In charge of Employer
Store/Site	Store/Site shall be the Store/Site of the Employer at BLOCK B OCP located in BLOCK B, P.O.-Gorbi, Distt- Singrauli (MP), Pin- 486892

**1.0 SCOPE OF SUPPLY / WORK & SERVICES :**

- 1.1** The scope of supply is to manufacture and deliver the total equipment / items in full and good condition as given in technical specification (enclosed at "Enclosure-II") FOR Site basis within BLOCK B OCP located in BLOCK B, P.O.-Gorbi, Distt- Singrauli (MP). The scope includes, inter alia, all auxiliary and ancillary related activities such as procurement of all inputs, raw materials, bought-out components and consumables including testing and inspection, painting, safe & secure packing, handling and transportation of finished equipment duly inspected and accepted by PURCHASER/representative of Employer/Consultant till safe delivery in Purchaser's Store at Project Site.

Any scope of supplies which is not specifically mentioned in this order but materially required for the completion of the supplies and/or for safe, trouble free normal operation shall be supplied free of cost to the Purchaser/Employer unless, expressly excluded in this order.

- 1.2** Total Time period for completion of Supervision of Testing & Commissioning is **2 man days**.
- 1.3** The approval by the Purchaser at any stage for any supplies by the supplier/supplier's sub-suppliers shall not relieve the supplier of his obligations under this order.

**2.0 PRICE BASIS**

**2.1 FOR SUPPLIES :**

- 2.1.1** Prices shall be firm and fixed till execution of order in full. No escalation will be admissible and granted on any account under any circumstances. Price schedule is to followed as per BOQ
- 2.1.2** The Prices are for the entire Scope of the Facilities including Commissioning spares, oils, grease, lubricants, flushing liquor, chemicals for pickling & Special Tools & Tackles if any etc., required till commissioning of the facilities.
- 2.1.3** The Prices are inclusive of all Taxes, Duties and freight upto site store. Price shall comprise of Basic Price, GST, freight, as may be applicable and prevailing on Base Date of the Purchase order.

## HEAVY ENGINEERING CORPORATION LIMITED

### PROJECT DIVISION

- 2.1.4 The payment of duties, taxes, levies, etc., will be reimbursed (on actual) against documentary evidence to be produced by the Supplier, subject to a ceiling indicated in Price Schedule of the P.O. In no case the reimbursement towards duties and taxes, etc., shall exceed the amount indicated in price schedule of the P.O. towards duties, taxes, levies, etc. except on account of variation in Taxes & Duties.
- 2.1.5 If the commissioning spares mentioned in the offer are found inadequate, the Supplier shall supply additional required Commissioning Spares, without any extra cost to the Purchaser. However, unused Commissioning Spares shall be the property of the Employer.
- 2.1.6 If the Oil, Grease & Lubricants found to be inadequate, the Supplier shall supply additional required Oil, Grease & Lubricants, without any extra cost to the Purchaser. However, unused Oil, Grease & Lubricants shall be the property of the Employer.

## **2.2 PRICE BASIS FOR SUPERVISION OF ERECTION, TESTING, COMMISSIONING & PG TEST**

- i) Prices should be quoted on the per man day basis and all applicable GST
- ii) GST for supervision of erection and commissioning if applicable shall be reimbursed against documentary evidence by PURCHASER. The price also includes all charges towards to and fro travel, boarding, local transportation, medical etc.
- iii) Price shall remain firm and binding and shall not be subject to any variation whatsoever on any account except for statutory variation on GST.
- iv) Purchaser will not entertain any additional visit charges under following circumstances :
  - a) In case of delay in erection/commissioning due to delay by supplier's engineer.
  - b) Due to lack of proper documents / knowledge to be possessed by supplier's engineer.
  - c) In case of additional visit necessitated due to fault / repair in the supplier's supplied equipment, because of design / manufacturing / workmanship fault.
  - d) In case of delays / loss of time beyond purchaser's control.
  - e) In case of short supplies by the supplier.

## **3.0 TAXES (GST)**

### **3.1 FOR SUPPLY**

- a) GST on finished items are included in the purchase order price. GST on finished items shall be paid at the rates prevailing at the time of delivery period or purchase order delivery period, whichever is earlier and will be limited to taxes and duties actually paid by the Supplier subject to a maximum value declared in their Bid. GST shall not be paid on the intermediate products, components, assemblies, raw materials etc. purchased by the Supplier.
- b) Any revised imposition of taxes/duties on the finished items within the purchase order delivery period will be reimbursed by PURCHASER against documentary evidence. Similarly, if any of existing taxes, duties, are reduced or abolished, PURCHASER shall be entitled to get the resultant benefit in full.

	<b>HEAVY ENGINEERING CORPORATION LIMITED</b>
	<b>PROJECT DIVISION</b>

- c) Original copy of the GST Invoice as duty paying document (i.e., Buyer's Copy of GST Invoice) shall be furnished by Supplier for claiming GST on the finished items. In addition to the above, the Supplier shall furnish a certificate to the effect that no refund of GST has been obtained or claimed except credit under **GST rule**. In case any refund is obtained in future by the Supplier, the same shall be immediately passed on to PURCHASER in full.
- d) Duplicate copy of the GST Invoice (i.e., Transporter's Copy) shall be sent along with Transporter and it should be ensured that the transporter's copy of GST invoice is handed over to Site/Stores of EMPLOYER/PURCHASER, along with the consignment. Documentary evidence shall be furnished by the Supplier regarding receipt of Transporter Copy of invoice at site stores of EMPLOYER/PURCHASER.
- e) GST Invoice should be Drawn in favour of EMPLOYER as per the details indicated in the despatch instructions. PURCHASER shall not reimburse GST in case GSTInvoice is not drawn as stated in the despatch instruction. GSTInvoice should contain all the particulars as per Latest Notification issued by Central Board of Excise and Customs / other concerned authorities.
- f) GST No. of HEC: will be intimated before Issue of purchase order

### **3.2 E-Way Bills( If Required)**

The e-way bill required in connection with supply of goods or services, if any, shall be arranged by the contractor/supplier. However, the e-way bill will be arranged by NCL if provisions of the relevant Act and the rules made there under specifically states that the e-way bill is required to be issued by recipient of goods.

6.5 **FOR SUPERVISION OF ERECTION AND COMMISSIONING**

Total payment worked out for the actual deployment of Engineer/Expert on the basis of man day rate shall be made within 30 days upon receipt of the following documents:-

- a) **GST invoice in triplicate** with the actual period of deployment of Engineer/Expert duly signed by SUPPLIER and certified by PURCHASER's/ EMPLOYER's site engineer.
- b) Supervision (Part/ Full) completion certificate duly signed by PURCHASER/ EMPLOYER.
- c) **GST-R1 COPY**

## HEAVY ENGINEERING CORPORATION LIMITED

### PROJECT DIVISION

#### 7.0 **GUARANTEE :**

The supplier shall must carry a guarantee of equipment/materials against faulty materials, faulty design, defective and bad workmanship for a period of 12 months from the date of FAC (Final Acceptance Certificate) or 24 months from the date of receipt of last consignment whichever is earlier.

#### 8.0 **BANK GUARANTEES**

##### 8.1 **Security Bank Guarantee & Performance Bank Guarantee (as per Annexure – E )**

The Supplier shall, within 15 (fifteen) days after the date of Purchase Order as specified, provide a Security Bank Guarantee (as per Annexure-E hereof) for the due performance of the contract an amount equivalent to 10% of the Total basic Price as indicated in the Price Schedule, the same shall be from any of the Nationalised Banks or Scheduled Banks in Ranchi and enforceable at Ranchi Jharkhand only.

The Public Sector Enterprises or State/Central Govt. Undertakings will not be required to submit Security Deposit, but however they shall submit "Performance Guarantee Bond" in lieu of Security Deposit

The Bank Guarantee for Security Deposit shall be valid till completion of supply which will be converted into performance Bank Guarantee valid till guarantee period as per clause 7.

##### 8.2 **Claims under Security (Bank Guarantee)**

If the Purchaser considers itself entitled to any claim under any Bank Guarantee, it shall so notify the Supplier by registered/speed post, specifying the default of the Supplier upon which claim is based and it shall require the Supplier to remedy the same. If the Supplier fails to remedy or to take steps to remedy the same within fourteen days of receipt of such notice, then the Purchaser shall be entitled to invoke Security BG/PBG.

#### 9.0 **LIQUIDATED DAMAGES FOR DELAY IN COMPLETION**

If the Supplier fails to attain "Delivery Period" as defined in Clause 5.0 above or any extension thereof due to reasons not attributable to the Purchaser, the Purchaser shall recover the amount of Liquidated Damages, but not by way of penalty, by making deductions from the Supplier's account or as a last resort by encashment of Supplier's Bank Guarantees, at the rate of 0.5% of the Final Purchase Order basic Price, if any, paid or payable to the Supplier per complete week of delay up to a maximum of 10% of the Final Purchase Order basic Price, paid or payable to the Supplier.

#### 10.0 **TRANSIT INSURANCE**

Shall be covered under Marine-cum-Erection & Commissioning(MCE) policy taken by us. The policy No. and detail address of the Insurance Company will be intimated to the supplier before despatch. Supplier shall have to furnish full despatch details to the Insurance Company with the copy to this office immediately after despatching the materials.

#### 11.0 **MODE OF DESPATCH**

For the consignments to be despatched by Road, the supplier shall ensure that the following are observed by them :

- i) All despatches must be effected only on receipt of written despatch clearance from PURCHASER.
- v) Supplier shall despatch all the materials consigned to, GM, Block B, NCL P.O- Gorbi, Distt- Singrauli (MP), Pin-486892

## HEAVY ENGINEERING CORPORATION LIMITED

### PROJECT DIVISION

- ii) Identify and obtain the correct type of trucks/trailers, keeping in view the nature of consignments to be despatched.
- iii) Care shall be taken to avoid damages during transit to ensure that all packages are firmly secured.
- vi) All consignments despatched by truck/trailor shall be consigned on door delivery basis (Full or part lorry load). No. transshipment is allowed.
- vii) The transporter must be approved by Bank Association.
- viii) In case any other mode of transport has to be restored other than that mentioned in the Purchase Order, the same should be done only after obtaining prior approval in writing from the Purchaser. By allowing such transportation no increase in freight charges shall be allowed and in case there is decrease, the actual shall be payable to the supplier

#### **12.0 PACKING, FORWARDING AND SHIPMENT**

- a) The Supplier, wherever applicable, shall after proper painting, pack and crate all equipment in such a manner as to protect them from deterioration and damage during rail and road transportation to the site and storage at the site till the time of erection. The Supplier shall be held responsible for all damages due to improper packing. The supplier shall be liable to deliver the material at the destination as per specification. Any damage during transit shall be sole responsibility of the supplier. In case of damage, the material shall be liable to be rejected and supplier shall replace the same and lift the rejected material within time at their risk and cost.
- b) The Supplier shall notify the Purchaser of the date of each shipment from his works, and the expected date of arrival at the site for the information.
- c) The Supplier shall also give all shipping information concerning the weight, size and content of each packing including any other information the Purchaser may require.
- d) The Supplier shall prepare detailed packing list of all packages and containers, bundles and loose material forming each and every consignment despatched to site. The Supplier shall further be responsible for making all necessary arrangements for loading, unloading and other handling right from his works upto the safe delivery at site store.
- e) The Supplier shall paste the Packing List on the container/boxes as well as inside the container/boxes.
- f) The Supplier shall ensure that after receipt of materials at site, his representative will be available at site for verification of materials as and when required by site I/c, HEC Ltd.

#### **13.0 DEMURRAGE, WHARF-AGE, ETC.**

All demurrage, wharf-age and other expenses incurred due to delayed clearance of the material or any other reason shall be to the account of the Supplier.

#### **14.0 FORCE MAJEURE**

A) Force majeure is herein defined as any cause which is beyond the control of the Supplier or Purchaser as the case may be which they could not foresee or with a reasonable amount of diligence could not have foreseen and which substantially affect the performance of the purchase order, such as:

- (a) natural phenomena, including but not limited to floods, draughts earthquakes and epidemics:
- (b) acts of any government, including but not limited to war, declared or undeclared, priorities, quarantines, embargoes, Provided either party shall

## HEAVY ENGINEERING CORPORATION LIMITED

### PROJECT DIVISION

within Twenty one (21) days from the date of occurrence of such a cause notify the other in writing of such causes.

**B) The bidding document will clearly state that**

- (a) The Supplier will advise, in the event of his having resort to this clause by a registered letter duly certified by the local chamber of commerce or statutory authorities, the beginning and end of the cause of delay, within fifteen days of the occurrence and cessation of such force majeure condition. In the event of delay lasting over two months, arising out of force majeure, the purchase order may be terminated at the discretion of the purchaser.
- (b) For delays arising out of Force Majeure, the Supplier will not claim extension in completion date for a period exceeding the period of delay attributed to causes of Force Majeure and neither EMPLOYER nor PURCHASER shall be liable to pay extra costs (like increase in rates, remobilization advance, idle charges for labour, machinery etc.).
- (c) If any of the Force Majeure conditions exists in the place of operation of the Supplier even at the time of submission of the bid he will categorically specify them in the bid and state whether they have been taken into consideration in their quotations.

**C) The Supplier or the Purchaser shall not be liable for delays in performing his obligations resulting from any force majeure cause as referred to and/or defined above. The date of completion will, subject to hereinafter provided, be extended by a reasonable time even though such cause may occur after Supplier's performance of his obligations has been delayed for other causes.**

**15.0 LONG TERM AVAILABILITY OF SPARES**

15.1 The Supplier shall guarantee the long term availability of spares to the Employer for the full life of the equipments covered under the purchase order. The Supplier shall guarantee that before going out of production of spare parts of the equipment covered under the purchase order, he shall give the Employer at least twelve (12) months advance notice so that the later may order his bulk requirement of spares, if he so desires. The same provision will also be applicable to sub-Supplier. Further, in case of discontinuance of manufacture of any spares by the Supplier or his sub-Suppliers, the Supplier will provide the Employer two years in advance, with full manufacturing drawings, material specifications and technical information required by the Employer for the purpose of manufacture of such items.

15.2 Further, in case of discontinuance of supply of spares by the Supplier or his sub-Suppliers, the Supplier will provide the Employer with full information for replacement of such spares with other equivalent makes, if so required by the Employer.

**16.0 MARKING OF EQUIPMENT :**

The materials must be marked/stenciled of Equipment No.

**17.0 NOTIFICATION OF DESPATCH :**

Each and every despatch should be notified immediately after despatch giving the relevant particulars like Truck No., Challan No. with date, C/Note No., Name of the transporter with their full address, date of despatch etc. to the following through telex/telegram/fax :

a)	Project Manager(I/c) HEC Ltd., Block B, NCL
b)	I/C(Purchase), Project Division HMBP Adm. Bldg. Annexe, HEC Ltd., Ranchi- 834004

## HEAVY ENGINEERING CORPORATION LIMITED

### PROJECT DIVISION

#### 18.0 **PAYING AUTHORITY**

Payment as mentioned above will be made by (I/C, Finance), Project Division, HEC Ltd., Ranchi 834 004.

#### 19.0 **PROGRESS REPORT:**

Progress of delivery/inspection must be given to the officer who has signed the purchase order, on the 15<sup>th</sup> and 30<sup>th</sup> of each month during urgency of delivery period. Where delivery period is crossed by the supplier, he has to take approval of buyer in writing before despatch.

#### 20.0 **SUBLETTING AND ASSIGNMENT :**

The supplier shall not, have without the previous consent in writing of the purchasers, sublet, transfer or assign the purchase order or any part thereof or interest therein or benefit or advantage thereof in any manner whatsoever. Provided nevertheless that any such consent shall not relieve the supplier from any obligation, duty or responsibility under the purchase order.

#### 21.0 **CHANGE IN A FIRM :**

Where the supplier is a partnership firm, a new partner shall not be introduced in the firm except with the previous consent in writing of the purchaser (which may be granted only as an exception) of a written undertaking by the new partner to perform the purchase order and accept all liabilities incurred by the firm under the purchase order prior to the date of such undertaking.

#### 22.0 **CONSEQUENCE OF BREACH :**

Should the supplier or a partner in the supplier firm commit breach of either of the clauses (20) and (21) of this commercial terms and conditions, it shall be lawful for the purchaser to cancel the purchase order and purchase or authorize the purchase of the stores at the risk and cost of the supplier firm and that even the provisions of Clause (9) shall, as far as applicable, apply.

The decision of Heavy Engineering Corporation Limited as to any matter or thing concerning or arising out of this clause or any question whether the supplier or any partner of the supplier firm has committed a breach of any of the conditions in this clause contained shall be final and binding on the supplier.

For ..... **(Name of Facilities)**

**Subject:**..... **Performance Bank Guarantee.**

Date ..... 201.

**To**  
**Heavy Engineering Corporation Limited**  
**P.O. Dhurwa, Dist. Ranchi, Pin - 834 004, (Jharkhand)**

Dear Sir,

We refer to the Contract Agreement / Purchase Order (hereinafter called the "Contract") Reference No..... Dated ..... between you and M/s. (**Name of the Supplier**) (hereinafter called the "Supplier") for the design, civil, manufacture, supply of plant & equipment, refractories and structures, storage, insurance & handling, erection, testing, commissioning and performance guarantee tests of .. . (**Name of the Facilities**) (**strikeout whichever is not applicable**).

In consideration of the Heavy Engineering Corporation Limited, having its Registered office at Plant Plaza Road, P.O. Dhurwa, Ranchi - 834004 (hereinafter called to as the "Purchaser" which expression shall unless repugnant to the context or meaning thereof, include all successors, administrators and assigns) having awarded to ..... [**Name & Address of the supplier**] (hereinafter called to as "Supplier" which expression shall unless repugnant to the context or meaning thereof include its successors, administrators, executors and assigns) the work ..... [**Name of the Work**] by issue of Letter of Award No. .... [**Letter of Intent No.**] and the same having been unequivocally accepted by the Supplier resulting into a Purchase Order No. .... dated ..... valued at ..... [**value of P. O.**] (hereinafter called 'the Contract') and the

## HEAVY ENGINEERING CORPORATION LIMITED

### PROJECT DIVISION

Purchaser having agreed to accept Performance Bank Guarantee of \_\_\_\_ [*indicate figure*]% of the Contract Sum \_\_\_\_\_ [*amount in figures and words*] from a Nationalized/Scheduled Bank for due performance of the work executed by the Supplier as per the terms & conditions contained in the said Contract.

We, \_\_\_\_\_ [*name of the Bank*], of \_\_\_\_\_ [*address of the Bank*] (hereinafter called to as "Bank" which expression shall unless repugnant to the context or meaning thereof, include its successors, administrators, executors and assigns) do hereby guarantee and undertake to pay the Purchaser immediately on demand and or, all money payable by the Supplier to the extent of \_\_\_\_\_ [*amount of guarantee in figures and words*], at any time from \_\_\_\_\_ to \_\_\_\_\_ without any demur, reservation, recourse, contest or protest and/or without any reference to the Supplier. Any such demand made by the Purchaser on the Bank shall be conclusive and binding notwithstanding any difference between the Purchaser and the Supplier or any dispute pending before any Court, Tribunal, Arbitrator or any other authority. We agree that the Guarantee herein contained shall be irrevocable and shall continue to be enforceable as per the terms & conditions contained in the said Contract.

The Purchaser shall have the fullest liberty without affecting in any way the liability of the Bank under this Guarantee, from time to time, to extend the validity of time of Performance of the Contract by the Supplier. The Purchaser shall have the fullest liberty without affecting this Guarantee, to postpone, from time to time, the exercise of any powers vested in them or of any right which they might have against the Supplier, and to exercise the same at any time in any manner, and either to enforce or to forebear or to enforce any covenants contained or implied in the Contract, between the Purchaser and the Supplier or any other course or remedy or security available to the Purchaser. The Bank shall not be released of its obligations under these presents by any exercise by the Purchaser of its liberty with reference to matter aforesaid or any of them or by reason of any other act of forbearance or other acts of omission or commission on the part of the Purchaser or any other indulgence shown by the Purchaser or by any other matter or thing whatsoever which under law would, but for this provision, have the effect of relieving the Bank. The Bank also agrees that the Purchaser at its option shall be entitled to enforce this Guarantee against the Bank as a Principal Debtor in first instance, without proceeding against the Supplier and notwithstanding any security or other Guarantee that the Purchaser may have in relation to the Supplier's liabilities.

This Bank Guarantee shall be operable at State Bank of India, Commercial Branch, MECON Campus, Doranda, Ranchi.

Dated this \_\_\_\_\_ day of \_\_\_\_\_ at \_\_\_\_\_

For and on behalf of the Bank.

## **ENCLOSURE-II**

### **TECHNICAL SPECIFICATION OF** **METAL DETECTOR**

# HEAVY ENGINEERING CORPORATION LIMITED PROJECT DIVISION

## COAL HANDLING PLANT (4.5MTPA) AT BLOCK B OCP

### TECHNICAL SPECIFICATION OF METAL DETECTOR

#### **1.0 SCOPE OF WORK**

This scope of work shall include design, engineering, manufacture, testing, Inspection, painting, supply, supervision of testing & commissioning, Performance Guarantee of **One (1) No. Metal detector** for Coal Handling Plant, Block B Project, Northern Coalfields Limited.

The scope of the Bidder shall be deemed to include all such items which although are not specifically mentioned in the specification, but are needed to make the equipment complete in all respect for its safe, reliable, efficient and trouble free operation.

The scope of bidder shall consist of but not limited to the following:-

- Metal detector shall be complete in all respect including search coil, sand bag marker, hooters, signal lamp etc.
- Protection guard and support for sand bag marker shall be supplied by HEC. However successful bidder has to shown scheme during detail engineering.
- The Bidder shall also include supervision services at site during testing and commissioning of the equipment supplied by them.
- All fixing bolts and nuts shall be included in the scope of supply of Bidder.
- Required quantity if any of initial fill of oil, grease, lubricants, hydraulic fluid etc. and other consumables shall be in the scope of supply of the Bidder.
- Electrics as per Annexure-1.
- Drawings & documents.
- Operation & Maintenance Manuals.

#### **2.0 EQUIPMENT SPECIFICATION**

##### **GENERAL**

The function of this unit will be to detect non-magnetic substances like manganese steel, brass, aluminum or any other metal that may come along with ROM coal. Metal Detector of coil type shall be provided. It should be capable of detecting the metal without obstructing the coal flow while the belt is running at its full capacity. The coils shall be protected against being struck by an oversized material/ coal.

##### **COMPLIANCE WITH STANDARD**

The equipment design and construction shall comply with relevant IS or in its absence with equivalent international standard and up to date engineering practice.

##### **DUTY REQUIREMENT**

Metal detectors shall have high reliability with enough sensitivity to detect 40mm aluminum sphere below the burden of coal . It shall also detect other metals, like brass, copper, stainless steel, manganese steel, bars, scraps etc. It should ignore magnetite/iron and shall distinguish between metal pieces and magnetite/iron.

##### Parameters of conveyors where Metal detector is to be installed:-

Conveyor no. - C1

Material Handled - Coal.

Lump Size- (-) 300mm. occasionally 400mm.

Belt Width - 1600 mm steel cord belting.

Capacity - 1600 TPH (Nominal), 1920 TPH (Peak)

Belt Speed - 2.85m/s.

Inclination of conveyor - 11 degree

**HEAVY ENGINEERING CORPORATION LIMITED  
PROJECT DIVISION**

**COAL HANDLING PLANT (4.5MTPA) AT BLOCK B OCP**

% of inherent moisture - 7-10 %

% of surface moisture - Upto 15% but may go upto 20% in rainy season.

Bulk Density (T/m<sup>3</sup>) 0.8

Troughing angle -35°

Burden depth of material-Approx. 400mm.

Ambient temperature-50 deg. C

RH-100%

**CONSTRUCTION REQUIREMENT**

- i. Fiber glass enclosure shall be provided for all type of coils.
- ii. Suitable tramp metal markers (sand bag) shall be provided.
- iii. Local control panel shall be provided with IP-62 degree of protection.
- iv. Metal detectors shall be suitable for installation in steel cord belting.

**3.0 PAINTING**

Painting shall be carried out as per manufacturers standard after issue of inspection certificate.

**4.0 INSPECTION , TESTING AND INSPECTION CERTIFICATE**

Inspection & Testing to be carried out at Bidders shop/premises as per Approved Quality assurance Plan (QAP)

Inspecting Authority: HEC/CMPDIL/NCL/Authorised Agency.

4.1 The manufacturer will prepare a detailed quality Assurance Plan (QAP) in purchaser's format & submit the same in Quintuplicate (5) for HEC /CMPDIL/NCL approval. The QAP shall cover all necessary checks related to receiving inspection of raw materials/boughtout items, in process & final inspections including painting, marking, packing etc.

4.2 The HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative and/or outside inspection agency acting on behalf of the Purchaser shall have at all reasonable times access to the Successful bidder's premises or works and shall have the power at all reasonable times to inspect and examine the materials and workmanship of the works during its manufacture and if part of the works is being manufactured or assembled at other premises or works, the Successful bidder shall obtain for the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative permission to inspect as if the works were manufactured or assembled on the Successful bidder's own premises or works.

4.3 Successful bidder shall give the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative fifteen (15) days written notice of any material being ready for testing. Such tests shall be to the Successful bidder's account except for the expenses of the Inspector. The HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative, unless witnessing of the tests is virtually waived, will attend such tests within fifteen (15) days of the date on which the equipment is notified as being ready for test / inspection, failing which the Successful bidder may proceed with the test which shall be deemed to have been made in the Inspector's presence and he shall forthwith forward to the Inspector duly certified copies of tests in triplicate.

4.4 The HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative shall within fifteen (15) days from the date of inspection as defined herein give notice in writing to the Successful bidder, of any objection to any drawings and all or any equipment and workmanship which in his opinion is not in accordance with the Technical Specification. The

**HEAVY ENGINEERING CORPORATION LIMITED  
PROJECT DIVISION**

**COAL HANDLING PLANT (4.5MTPA) AT BLOCK B OCP**

Successful bidder shall give due consideration to such objections and shall either make the modifications that may be necessary to meet the said objections or shall confirm in writing to the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative giving reasons therein, that no modifications are necessary to comply with the contract.

- 4.5 When the factory tests have been completed at the Successful bidder's or sub-vendors works, the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative shall issue a certificate to this effect within fifteen (15) days after completion of tests but if the tests are not witnessed by the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative, the certificate shall be issued within fifteen (15) days of the receipt of the Successful bidder's test certificate by the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative. Failure of the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative to issue such a certificate shall not prevent the successful bidder from proceeding with the works. The completion of these tests or the issue of the certificate shall not bind the Purchaser to accept the equipment should it, on further tests after erection, be found not to comply with the contract.
- 4.6 In all cases where the contract provides for tests whether at the premises or works of the Successful bidder or of any sub-vendors, the Successful bidder, except where otherwise specified, shall provide free of charge such items as labour, materials, electricity, fuel, water, stores, apparatus and instruments as may be reasonably demanded by the HEC's/NCL's/Consultant's Engineer and/or his authorised representative to carry out effectively such tests of the equipment in accordance with the contract and shall given facilities to the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative to accomplish testing.
- 4.7 The inspection by HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative and issue of Inspection Certificate thereon shall in no way limit the liabilities and responsibilities of the Successful bidder in respect of the agreed quality assurance programme forming a part of the contract.

**4.8 INSPECTION & QUALITY CONTROL BEFORE DESPATCH**

**4.8.1 SPECIAL MATERIAL**

The manufacturer should furnish during inspection without extra charges test certificates covering mechanical properties and chemical composition for special raw materials used including that of liners. The certificates should be from the approved testing laboratories such as Small Industries Services, CMERI, Durgapur, NPL, New Delhi etc. If considered necessary, samples for material may be selected as per relevant latest Indian Standards and code by the Employer's representative from amongst the raw materials and manufactured components of equipment and got tested in the approved laboratory. In case samples so selected fail to meet the standard specifications the whole lot of manufactured components will be rejected and disqualified for use again for any of the Employer's supplies.

**4.9 AVAILABILITY OF STANDARD SPECIFICATION METERS, GAUGES ETC. FOR TESTING & INSPECTION.**

The manufacturer will maintain all relevant standards and codes of practice for manufacture, inspection and testing of components of the equipment ordered. He will also maintain a set of meters, gauges etc. as may be required for testing and inspection of components.

## HEAVY ENGINEERING CORPORATION LIMITED PROJECT DIVISION

### COAL HANDLING PLANT (4.5MTPA) AT BLOCK B OCP

#### **4.10 CHECKS DURING INSPECTION**

The details of the checks to be carried for various components are to be submitted by the successful bidder for HEC/CMPDI/NCL's approval. However, some indicative checks on different items are given below which should necessarily form part of the quality assurance programme to be agreed with the CMPDI/NCL.

- All plates above 20mm thickness shall be ultrasonically tested for laminations.
- Shaft forgings and castings shall be checked for hardness, microstructure and ultrasonic testing in addition to check for chemical and mechanical properties.
- Following minimum NDT requirements to be ensured for welds:
  - i) Butt welds : 10% Ultrasonic/Radiographic and 100% Magnetic particle
  - ii) Fillet welds : 10% Magnetic particle

#### **5.0 MAKELIST OF BOUGHTOUTS**

Makes of different components shall be of reputed makes with proven performance record and the same shall be as per approval of HEC/NCL/CMPDIL.

#### **6.0 GUARANTEE**

- a) The successful bidder shall warrant that the equipment will be new and in accordance with the technical specification and be free from defects in material, design, manufacture and workmanship.
- b) The successful bidder's liability shall be limited to the replacement of any defective parts in the equipment of his own manufacture or those of his sub-contractor (s)/ sub-vendor (s) or replacement of the complete equipment, under normal use and arising solely from faulty design, manufacture, materials, and/or workmanship provided always that such defective parts/ equipment are repairable at the site/ replacing the equipment as a whole without hampering the operation of the plant. Such replaced defective parts/ old equipment shall be returned to the successful bidder unless otherwise arranged.

#### **7.0 PACKING, FORWARDING AND SHIPMENT** **PACKING**

All the equipment shall be suitably protected, coated, covered or boxed and crated to prevent damage or deterioration during transit, handling and storage at site till the time of erection.. The Successful Bidder shall be responsible for any loss or damage during transportation, handling and storage due to improper packing.

The Successful Bidder shall prepare detailed packing list of all packages and containers, bundles and loose material forming each and every consignment dispatched to site. The Successful Bidder shall further be responsible for making all necessary arrangements for loading, unloading and other handling right from his works up to the site

#### **8.0 DRAWINGS & DOCUMENTS**

##### **8.1 Drawing Approval**

- 8.1.1 All drawings submitted by the Successful bidder including those submitted at the time of bid shall be sufficiently detailed to indicate the type, size, arrangement, weight of each component, break-up for packing and shipment, the external-connections, fixing arrangements required, the dimensions required for installation and inter-connections with other equipment

**HEAVY ENGINEERING CORPORATION LIMITED  
PROJECT DIVISION**

**COAL HANDLING PLANT (4.5MTPA) AT BLOCK B OCP**

and materials, clearances and spaces required between various portions of equipment and any other information specifically mentioned in the specifications.

- 8.1.2** Each drawing submitted by the successful bidder shall have Title Block approved by the Purchaser (shall be provided to successful bidder) indicating the name of the Employer, Purchaser, name of the project, title, Drawing No. etc. If standard catalogue pages are submitted the applicable items shall be indicated therein. All titles, noting, markings and writings on the drawing shall be in English. All the dimensions should be in metric units.
- 8.1.3** Drawings shall be submitted for approval in AutoCAD format in CD's along with six copies of hard copies.
- 8.1.4** Copies of drawings returned to the Successful bidder will be in the form of a print /softcopy with the Employer's marking, or a print made from a CD's for computer base.
- 8.1.5** The drawings submitted by the Successful bidder shall be reviewed by the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative and shall be modified by the Successful bidder if any modifications and / or corrections are required by the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative. The Successful bidder shall incorporate such modifications and/or corrections and submit the final drawings for approval. Any delay arising out of failure by the Successful bidder to rectify the drawings in good time shall not alter the contract completion date.
- 8.1.6** **Approval by the Nodal Officer or his nominee:** The successful bidder shall submit specifications and drawings to HEC's/NCL's/Consultant's Engineer in charge or his nominee who is to approve them if they comply with the specifications and drawings. The Successful bidder shall be responsible for the Design & Performance of items/equipment.
- 8.1.7** The HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative's approval shall not alter the Successful bidder's responsibilities for the Design & Performance of items/equipment.
- 8.1.8** All the drawings shall be prepared in accordance with the provisions of latest standards. All drawings shall comply with current Indian Standard specifications and shall be sufficiently detailed with dimensions and shall be clear and legible.
- 8.1.9** If the drawing is "Approved" then one set shall be returned back to the successful Successful bidder duly stamped "Approved".  
If the drawing is "Not Approved" or "Approved as Noted" then one stamped print or softcopy with Appropriate Comments shall be returned back to the Successful bidder for incorporation of comments and resubmission of revised drawings for Approval
- 8.1.10** After completion of the works the Successful bidder shall replace old drawings by As built drawing after incorporating all corrections from the site under the direction of the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative.
- 8.1.11** Further work by the Successful bidder shall be in strict accordance with these drawings and no deviation shall be permitted without the written approval of the HEC's/NCL's/Consultant's Engineer and/or his duly authorised representative, if so required.

**HEAVY ENGINEERING CORPORATION LIMITED  
PROJECT DIVISION**

**COAL HANDLING PLANT (4.5MTPA) AT BLOCK B OCP**

**8.1.12** All manufacturing and fabrication work in connection with the equipment prior to the approval of the drawings shall be at the Successful bidder's risk. The Successful bidder may make any changes in the design which are necessary to make the equipment conform, to the provisions and intent of the contract and such changes will again be subject to approval by the HEC's/NCL's/Consultant's Engineer In charge and/or his duly authorised representative. Approval of Successful bidder's drawings or work by the HEC's/NCL's/ Consultant's Engineer In charge and/or his duly authorised representative shall not relieve the Successful bidder of any of his responsibilities and liabilities under the contract.

**8.1.13** Drawings shall include all installation and detailed piping drawings wherever applicable. All piping 100 mm and larger shall be routed in detail and smaller pipe shall be shown schematically or by isometric drawings. All drawings shall be fully corrected to agree with actual as built construction.

**8.1.14** All Electrical drawing shall include electrical schematic diagram, Equipment & cable layout, Inter connection diagram, cable schedule, Detail bill of material, GA Drawing with BOM and circuit diagram of control panel/VFD panel, cable, VFD & motor selection calculation.

**8.2 OPERATING AND MAINTENANCE MANUALS**

"As built" drawings and/ or operating and Maintenance manuals required shall be supplied by the Successful bidder by the dates stated in the contract data. If the Successful bidder does not supply the drawings and / or manuals by the dates stated in the contract data, or they do not receive the Nodal Officer or his Nominee's approval, the Nodal Officer or his Nominee shall withhold the amount stated in the contract data from payments due to the Successful bidder.

**8.3 INSTRUCTION MANUALS**

**8.3.1** The Successful bidder shall submit to the HEC's/NCL's/Consultant's Engineer In charge and/or his duly authorised representative, preliminary instruction manuals for all the equipment, covered under the contract within the time agreed upon between the Purchaser & the Successful bidder. The final instruction manuals complete in all respects shall be submitted by the Successful bidder thirty (30) days before the first shipment of the equipment. The instruction manuals shall contain full details and drawings of all the equipment furnished, the erection procedures, testing procedures, operation and maintenance procedures of the equipment. These instruction manuals shall be submitted in the form of two (2) reproducible original and five (5) copies.

**8.3.2** If after the commissioning and initial operation of the plant, the instruction manuals require any modifications/ additions/changes, the same shall be incorporated and the updated final instruction manuals in the form of two (2) reproducible original and five(5) copies shall be submitted by the Successful bidder to the Purchaser.

**8.3.3** The Successful bidder shall furnish to the Employer, ten (10) sets of spare parts catalogue.

**8.3.4** In addition, the Successful bidder shall supply three (3) sets of all the documents, specifications and as built drawings in CDs. The documents supplied shall be in easily readable, search & printable format.

**HEAVY ENGINEERING CORPORATION LIMITED  
PROJECT DIVISION**

**COAL HANDLING PLANT (4.5MTPA) AT BLOCK B OCP**

**8.3.5** The Successful bidder has to carry out the work in such a manner that it does not effect the operation of the Plant/Shop. If other Successful bidders are also engaged in the same work site for other jobs, the Successful bidder will work with them in a co-ordination manner.

**8.4 LIST OF DRAWINGS /DATA TO BE SUBMITTED ALONG WITH TENDER**

- a) General arrangement drawing along with load data
- b) Details of bought-out items & component list.
- c) Filled in questionnaire
- d) List of recommended 5 years O & M spares of the equipment.

**8.5 DRAWINGS & DOCUMENTS TO BE SUBMITTED BY SUCCESSFUL BIDDER**

The following Information/documents shall be furnished by the manufacturer/successful bidder :-

- a) General arrangement drawings of the equipment
- b) Furnishing of detail design calculations in support of different design and equipment parameters.
- c) Power & Control circuit diagram with terminal details, connected electrical load, 30 min maximum demand GA drawing of Panel, with Bill of material.
- d) Quality Assurance plan and inspection /Test procedures.
- e) Inspection /Test certificates and Guarantee Certificate for the main equipment, Component and raw material as applicable – During inspection
- f) Furnishing of erection, operational, maintenance and spare parts manual supported by the illustrative pamphlet and literature of manufacturers.
- g) Overall dimension and weight of bigger and heaviest component.
- h) Make and model of equipment/parts/components.
- i) Catalogues/leaflets for all equipment including bought out items. Details of bought out items with makes shall be given separately.

**9.0 QUESTIONNAIRE**

Following data/information shall be furnished by Bidder along with Offer:-

General

- i. Name and address of the Bidder
- ii. Previous experience of the Bidder :
- iii. List of similar equipment supplied :
- iv. Whether the Bidder has any technical collaboration with any other company/ organisation for his equipment.
- v. If answer to question iv is yes, furnish : the following details.
  - a) Name and address of the collaborator
  - b) Nature of the collaboration in detail
  - c) Previous experience of the collaborator
- vi. List of drgs./ literatures enclosed with the offer.

Technical

- 1. Type & Model No.
- 2. Make
- 3. Sensitivity

## **ELECTRICAL SPECIFICATION**

---

***EQUIPMENT SPECIFICATION  
FOR  
ELECTRICS OF METAL DETECTOR***

**1.0 SCOPE**

1.1 The scope includes all the major supplies of Electrics for One No. of Metal Detector for Conveyor C1.

1.2 The Metal Detector shall be completed with the followings however any items/electrics not mentioned hereunder or elsewhere in this specification but necessary for successful commissioning and trouble free operation of the system shall be deemed to be included in the scope of the tenderer:

- a) Wall/column/structure mounted Local Control Panel (LCP) & Electronic Unit (EU).
- b) Coaxial Cable (minimum 15 meter) with solderable screen and Tandem Probe.
- c) Sand Bag Marker interlock switch with Sand Bag.
- d) Power cable for power supply to Electronic Unit (EU) from Local Control Panel (LCP) and to Counter from Electronic Unit (EU).
- e) Control cable for interconnection of LCP, EU, Counter and other accessories for control the equipments in all respect.
- f) Protective Devices.
- g) Hooter with audible range min. 50 meter.
- h) Fibre glass enclosures shall be provided for all type of coils.
- i) Suitable tramp metal marker shall be provided.
- j) Local control panel shall be provided with IP-62 degree of protection
- k) Power and Control Junction Boxes if required.
- l) Any special cable if required.
- m) The Equipment shall be interfaced with our plant PLC System located at Substation-B. As such provision for signal exchange between the metal detector and the Purchaser's plant PLC System shall be in the Tenderer's scope.

Note:- (1) The resistance of the coaxial cable shall be indicated by the tenderer in their offer & drawing.

(2) The type and size of control cable or any other special cable if required shall be indicated in their offer and drawing.

**2.0 GENERAL**

2.1 The purchaser will provide Single Phase, 2 Wire, 230V +/-10%, 50Hz (+/-3%) incoming power supply upto the incoming side of the Local Control Panel (LCP) of Metal Detector from LTMCC at Substation-B (SS-2).

2.2 The purchaser shall provide only following cables:-

- a) Power Cable for incoming power supply to LCP of Metal Detector on Conveyor C1 shall be provided by the purchaser from purchaser's LTMCC at Substation-B (SS-2).
- b) Similarly one number Control Cable shall be provided by the purchaser to wire the NO/NC Contacts of the equipment's output relays terminated at terminal block strip (to be provided by the tenderer in their control unit box) up to the purchaser's LTMCC at Substation-B (SS-2) for tripping the conveyor feeder module in case of metal detection.

2.3 All the Electrical equipments like Local Control Panel, Electrical Unit, Counter, Tandem Probe etc. or any other electrics not mentioned in this specification but necessary for the completeness of the system shall be in the tenderer's scope.

- 2.4 The Local Control Panel (LCP), Electronic Unit (EU) & Counter of metal detector shall be mounted near the tandem probes to be installed on Conveyor C-1 in the field and hence the LCP, EU & Counter of metal detector shall be suitable for wall/structure/column mounting.
- 2.5 The system shall be controlled locally as well as from remote PLC. Hence LCP shall have local/remote selector switch, required push buttons & indicating lamps with potential free contact to interface with PLC system for auto operation.
- 2.6 Metal detector shall be compatible for belt conveyor of rated/design capacity of 1600/1920 TPH.
- 2.7 Metal detector shall have high reliability with enough sensitivity to detect 25 mm aluminum sphere below the burden of coal and shall also detect other metal like "Brass", "Copper", "Stainless Steel", "Manganese Steel", "Bars", "Scraps" etc.
- 2.7 There shall be a provision for locking & earthing arrangement in LCP & EU of metal detector.

### 3.0 **SERVICE CONDITIONS**

- Ambient air temperature : 4°C to 50°C.
- Altitude : Maximum upto 1000 M above MSL.
- Relative Humidity : 100%.
- Pollution degree : Degree 4 as per IS : 13947 (Part I)  
(i.e. the pollution generates persistent conductivity caused by conductive dust)

### 4.0 **OPERATING CONDITIONS**

- Nominal system Voltage : Single Phase 230 V ( $\pm 10\%$ )
- Supply Frequency : 50 Hz ( $\pm 3\%$ )
- Highest Fault Level : 31 MVA
- System earthing : Solid Earthed

### 5.0 **SPECIFICATION OF MAJOR ELECTRICS**

#### 5.1 **SPECIFICATION FOR LOCAL CONTROL PANEL (LCP)**

- 5.1.1 The Local Control Panel (LCP) shall be metal enclosed, suitable for outdoor/indoor mounting on wall or steel structures. The enclosure shall be die-cast aluminum or cold rolled sheet steel of at least 1.6 mm thickness. The enclosure shall be provided with a hinged guard at the front, covering full length, to avoid inadvertent operation of pull chord switches/push buttons. LCP shall be painted to shade no. 692 of IS: 5 in accordance with relevant code. The LCP shall be dust and vermin proof and shall have a degree of protection of IP- 62 as per relevant code.

The LCP shall be suitable for both top and bottom cable entry (either of which may be used depending on cabling convenience) and shall be provided with removable undrilled gland plates or knockouts. Adequate space shall be available inside the LCP enclosure for terminating external cables directly on pull cord/push button terminals. Overall size of LCP shall be subject to Purchaser's approval.

Locking arrangement and earthing arrangement will be provided. On/OFF Trip feedback will be provided. Interlock with respective Conveyor will be provided.

The Local Control Panel (LCP) shall have the following components:-

	<b>HEAVY ENGINEERING CORPORATION</b>
	<b>PROJECT DIVISION</b>

- Power “ON” & “OFF” main switch.
- “LOCAL” & “REMOTE” selector switch.
- “ON”&“OFF” Push Buttons.
- “METAL” Indication Lamp.
- “RESET” Push Button.
- Hooter.
- Counter.

In the terminals of LCP, following provisions should be provided alongwith other necessary signals:-

- (1) Spare contact for “ON”, “OFF”, “TRIP” feedback & “METAL DETECTED” to PLC.
- (2) To Sand Bag Marker.
- (3) To main conv. Motor interlock.
- (4) 20% Spare TB.

## **5.2 SPECIFICATION FOR ELECTRONIC UNIT(EU)**

The Electronic Unit (EU) shall be metal enclosed, suitable for outdoor/indoor mounting on wall or steel structures. The enclosure shall be die-cast aluminum or cold rolled sheet steel of atleast 1.6 mm thickness. The enclosure shall be provided with a hinged guard at the front, covering full length, to avoid inadvertent operation of pull chord switches/push buttons. EU shall be painted with pebble grey paint of shade RAL-7032 in accordance with relevant code. The EU shall be dust and vermin proof and shall have a degree of protection of at least IP- 65 as per relevant code. Power consumption of the EU shall be 15 VA.

The EU shall be suitable for both top and bottom cable entry (either of which may be used depending on cabling convenience) and shall be provided with removable undrilled gland plates or knockouts. Adequate space shall be available inside the EU enclosure for terminating external cables directly on pull cord/push button terminals. Overall size of EU shall be subject to Purchaser’s approval.

The Electronic Unit(EU) shall have the following components:-

- Micro Ammeter (0-100 Micro Amps).
- Indicating Lamps (Green for “Power On”, Amber for “METAL”, Blue for “BYPASS”, Red for “DISTURBANCE”).
- “POTENTIOMETER” for sensitivity adjustment.
- “RESET” Push Button.
- “FUNCTION CONTROL” Push Button.
- Selector Switch.
- Power “ON” & “OFF” main switch.

## **5.3 SPECIFICATION FOR TANDEM PROBE**

The probes will be covered with fibre glass (IP 65 degree of protection) & totally sealed in epoxy resin making it improves to moisture. The colour coding of the probe shall be as under:-

Coil:- Golden Yellow

Spacer:- Black

## 5.4 SPECIFICATION FOR MOULDED CASE CIRCUIT BREAKERS

The Moulded Case Circuit Breakers shall comply with the latest revision of IS: 13947(Part I) and IEC: Publication 947 except where modified or extended by the provision of this specification and with the relevant parts of standards mentioned hereunder.

### 5.4.1 OTHER RELEVANT STANDARDS

The other relevant Indian standards are as under:

- IS : 3072 : Code of practice for installation and maintenance of switchgear.
- IS : 4237 : General requirements for switchgear and control gears for voltages not exceeding 1000V AC.
- IS : 10118 : Code of practice for selection, installation and maintenance of Switchgear and Control gear.
- IS : 11353 : Guide for uniform system of marking and identification of conductors and apparatus terminals.

### 5.4.2 DESIGN CRITERIA

The Moulded Case Circuit Breakers shall operate on a Single Phase, 230V ( $\pm 10\%$ ), 50 Hz (-3% to +3%) power supply. Fault withstand capacity shall not be less than 25 kA.

All similar components shall be interchangeable and shall be of same type and rating for easy maintenance and low spare inventory.

The rated carrying capacity shall be sufficient at the rated voltage and frequency and the circuit breaker shall carry this current continuously while complying with this specification.

### 5.4.3 CONSTRUCTIONAL FEATURES

- a) The Circuit breakers shall be three pole, moulded case air break type.
- b) The circuit breaker shall have tripping mechanism for over load and short circuit irrespective of the type of operating mechanism. In addition, provision shall be made for manual tripping of the breaker. The breakers shall be fixed type.
- c) Circuit Breaker shall be provided with anti-pumping and trip free feature.
- d) Tripping shall be possible by means of front mounted "OFF" switch. Making of the breaker shall be possible by means of "ON" switch.
- e) Suitable indications shall be provided on circuit breaker to show "ON", "OFF", conditions.
- f) The following protection (release type) shall be provided :
  - I. Ambient temperature compensated thermal overload trip with adjustable settings.
  - II. Magnetic Short circuit trip.

### 5.4.4 PERFORMANCE

- a) The temperature rise of parts of the equipment like terminals, accessible parts, main circuit, windings of coils and electromagnets etc. measured during the test carried out in accordance with IS: 13947 (Part I) shall not exceed temperature rise limits specified in the said standard.
- b) The dielectric property of the equipment, clearances and minimum creepage distance shall conform to IS: 13947 (Part I).
- c) The equipment shall be capable of making and breaking load and overload

currents without failure under the conditions stated in the relevant product standard for the required utilization category.

- d) The equipment shall be capable of withstanding thermal and electromagnetic stress from short circuit currents during current making, current carrying in the closed position and during current interruptions.

#### **5.4.5 TECHNICAL SPECIFICATION FOR MOULDED CASE CIRCUIT BREAKERS (MCCB)**

- |                               |  |
|-------------------------------|--|
| 1. Number of Poles            | : 3  |
| 2. Service Voltage            | : Single Phase, 230V ( $\pm 10\%$ )  |
| 3. Rated current (A)          | : As Required  |
| 4. Making capacity            | : 25 kA (peak)   |
| 5. Frequency                  | : 50 Hz ( $\pm 3\%$ )  |
| 6. Operating Mechanism        | : Manual Trip free   |
| 7. Tripping arrangement       | : Thermal overload and Short circuit<br>electromagnetic release.   |
| 8. Protections to be provided | : i) Short circuit<br>ii) Overload   |
| 9. Cable Terminal             | : Suitable for PVC SWA with Aluminum<br>conductor. Totally shrouded to avoid risk of<br>electric shock to operating personnel. |
| 10. Execution                 | : Fixed  |

#### **5.5 SPECIFICATION FOR MINIATURE CIRCUIT BREAKERS (MCB)**

The Miniature circuit breakers shall comply with the latest revision of IS: 8828-1993 except where modified or extended by the provision of this specification and with the relevant parts of standards mentioned hereunder.

##### **5.5.1 OTHER RELEVANT STANDARDS**

The other relevant Indian standards are as under:

- |            |   |
|------------|---|
| IS : 3072  | : Code of practice for Installation and Maintenance of switchgear.                              |
| IS : 4237  | : General requirements for switchgear and controlgears for voltages not exceeding 1000V AC.     |
| IS : 10118 | : Code of practice for selection, installation and maintenance of Switchgear and Controlgear.   |
| IS : 11353 | : Guide for uniform system of marking and identification of conductors and apparatus terminals. |

##### **5.5.2 DESIGN CRITERIA**

The breakers shall operate on a Single Phase, 230V ( $\pm 10\%$ ), 50 Hz ( $-3\%$  to  $+3\%$ ) power supply. Fault withstand capacity shall not be less than 9 kA for one second.

The rated carrying capacity shall be sufficient at the rated voltage and frequency and the breaker shall carry this current continuously while complying with this specification.

##### **5.5.3 CONSTRUCTIONAL FEATURES**

- a) The circuit breaker shall have current limiting devices with an inverse time delayed thermal trip device and an un-delayed magnetic trip device to take care of steady

overload and short circuit faults respectively. The breakers should be suitable for switching/ protection of lighting circuits.

b) The technical data for Circuit breakers are given hereunder:

#### 5.5.4 **TECHNICAL SPECIFICATION FOR MINIATURE CIRCUIT BREAKERS & RCCBs**

- |                              |   |
|------------------------------|---|
| 1. Number of poles           | : 2 / 3   |
| 2. Rated Current             | : As Required                                   |
| 3. Breaking capacity         | : 9 kA  |
| 4. System voltage            | : Single Phase, 230V (±10%)                     |
| 5. Frequency                 | : 50 Hz (±3%)                                   |
| 6. Enclosure of the breakers | : Moulded self extinguishing thermoset plastic. |
| 7. Dolly (Switching lever)   | : Can be locked in either OFF or ON position.   |
| 8. Fixing                    | : Snap fitting                                  |
| 9. Cable Terminal            | : Suitable for PVCSWA with Aluminium conductor. |

Totally shrouded to avoid risk of electric shock to operating personnel.

- |                          |  |
|--------------------------|--|
| 10. Operating mechanism  | : Manual Trip Free   |
| 11. Tripping Arrangement | : Magnetic Short Circuit Release.<br>Thermal Overload Release. |

### 5.6 **SPECIFICATION FOR CABLES**

#### 5.6.1 **660/1100 V GRADE PVC ARMOURED CABLE**

The cable shall comply with the latest version of IS:1554 (Part 1) except where modified or extended by this specification and with the relevant parts of standards mentioned in clause hereunder:

##### 5.6.1.1 **CODES**

The other relevant standards applicable are as under:

- |            |   |
|------------|---|
| IS : 10418 | : Specification of drums for electric cables  |
| IS : 8130  | : Conductors for insulated electric cables and flexible cords   |
| IS : 3975  | : Specification for mild steel wires, strips and tapes  |
| IS : 5831  | : PVC insulation for armouring cables and sheath of electric cables   |
| IS : 10462 | : Fictitious calculation method for determination of dimensions of protective covering of cables. Part I elastomeric and thermoplastic insulated cables |
| IS : 2     | : Rules for rounding off values   |
| IS : 10810 | : Method of test for cables (Part 0 to Part 63)   |
| IS : 1885  | : Electro technical vocabulary part 32, cables, conductors and accessories  |
| IS : 4905  | : Methods for random sampling.  |

##### 5.6.1.2 **CONSTRUCTION MATERIAL**

The conductor shall be Aluminium wires conforming to relevant codes and the insulation used shall be Poly Vinyl Chloride (PVC) compound conforming to the requirements of Type A and Type C compound conforming to relevant codes.

The outer sheath, fillers and inner sheath shall have FRLS property.

Armouring shall be Galvanized round steel wire. Galvanized steel wires shall comply with the requirements of relevant Code. A binder tape on the armour shall be provided.

#### 5.6.1.3 **CONSTRUCTIONAL FEATURES**

The conductor shall be of stranded construction complying with class 2 of relevant codes. A protective barrier shall be provided between the conductor and the insulation and this shall be compatible with the insulating material and the operating temperature of 70°C. The conductor with protective barrier shall be provided with PVC insulation applied by extrusion.

The average thickness of insulation shall be as per relevant IS. Armouring shall be provided over the inner sheath.

The armour of the cables shall consist of galvanized round steel wires. The nominal diameter of round armour wire shall be as per relevant IS.

#### 5.6.1.4 **TECHNICAL INFORMATION**

- Applicable Code - IS 1554 (Part-1)
- Cable Code - AYFY
- Voltage Grade - 660/1100 V
- Conductor Size - As required
- No. of Cores - 2 / 3 / 3.5 / 4

#### 5.6.2 **660/1100 V GRADE CONTROL CABLE**

The cable shall comply with the latest version of IS:1554 (Part 1) except where modified or extended by this specification and with the relevant parts of standards mentioned hereunder:

##### 5.6.2.1 **CODES**

The other relevant standards applicable are as under:

- IS : 10418 : Specification of drums for electric cables
- IS : 8130 : Conductors for insulated electric cables and flexible cords
- IS : 3975 : Specification for mild steel wires, strips and tapes
- IS : 5831 : PVC insulation for armouring cables and sheath of electric cables
- IS : 10462 : Fictitious calculation method for determination of dimensions of protective covering of cables. Part I elastomeric and thermoplastic insulated cables
- IS : 2 : Rules for rounding off values
- IS : 10810 : Method of test for cables (Part 0 to Part 63)
- IS : 1885 : Electrotechnical vocabulary part 32, cables, conductors and accessories
- IS : 4905 : Methods for random sampling.

##### 5.6.2.2 **CONSTRUCTION MATERIAL**

The conductor shall be Copper wires conforming to relevant codes and the insulation used shall be Poly Vinyl Chloride (PVC) compound conforming to the requirements of Type A and Type C compound conforming to relevant codes.

The outer sheath, fillers and inner sheath shall have FRLS property.

Armouring shall be Galvanized round steel wire. Galvanized steel wires shall comply with the requirements of relevant Code. A binder tape on the armour shall be provided.

### **CONSTRUCTIONAL FEATURES**

The conductor shall be of stranded construction complying with class 2 of relevant codes. A protective barrier shall be provided between the conductor and the insulation and this shall be compatible with the insulating material and the operating temperature of 70°C.

The conductor with protective barrier shall be provided with PVC insulation applied by extrusion.

The average thickness of insulation shall be as per relevant IS.

Armouring shall be provided over the inner sheath.

The armour of the cables shall consist of galvanized round steel wires. The nominal diameter of round armour wire shall be as per relevant IS.

#### **5.6.2.3 TECHNICAL INFORMATION**

- Applicable Code - IS 1554 (Part-1)
- Cable Code - YWY/YFY
- Voltage Grade - 660/1100 V
- Conductor Size - 1.5 mm<sup>2</sup>(for internal wiring)  
2.5 mm<sup>2</sup> (for external connections)
- No. of Cores - As required

#### **5.6.3 SPECIAL CABLES**

Special cables shall be provided including but not limited to the following:

These cables shall be heavy duty Fire Retarding Low Smoke and self-extinguishing, colour coded, shielded, armoured copper conductor 650/1100 volts grade coaxial screwed compensating mineral insulated etc.

#### **5.6.4 PERFORMANCE**

The cables shall carry the rated current for the type of installation and ambient temperature in accordance with the relevant Code. The cable shall also be able to withstand the fault level in accordance with the relevant Code.

#### **5.7 DRAWINGS AND DOCUMENTS**

In the event of ordering the tenderer shall furnish the following drawings and documents for approval prior to dispatch of the equipment:

- a) GA drawings with complete Bill of Quantity (BOQ) of all units (like Local Control Panel, Electronic Unit, Tandem Probe, Protective Device etc.) indicating mounting dimensions.
- b) Data sheet, catalogues & leaflets of all other offered Electrics/ Components/ Panels if any.
- c) Control Philosophy and Control Write-up with full functional description of the Metal Detector in the drawing.
- d) Single Line Diagram (SLD), three line connection drawing, schematic drawing, wiring diagram for the control of equipment.

## HEAVY ENGINEERING CORPORATION

### PROJECT DIVISION

- e) Interconnection block diagramme.
- f) Termination Details /Cable Termination Plan.
- g) Cable Schedule with scope of cable.
- h) Electrical QAP.
- i) Constructional features.
- j) Firm has to furnish control philosophy of Metal detector.
- k) Firm has to furnish interconnection block diagram for the system.
- l) Firm has to furnish constructional features of Panel.
- m) Any other drawing or document, if required.
- n)

#### NOTES:

1. Any items/electrics not mentioned in this specification but necessary for successful commissioning and trouble free operation of the system shall be deemed to be included in the scope of the tenderer.
2. All the Electrics envisaged in the scheme for the control of the equipment shall be in the scope of the tenderer.
3. The tenderer is required to furnish detailed list of all the electrics that will be in their scope of supply.

## RECEIVING PIT

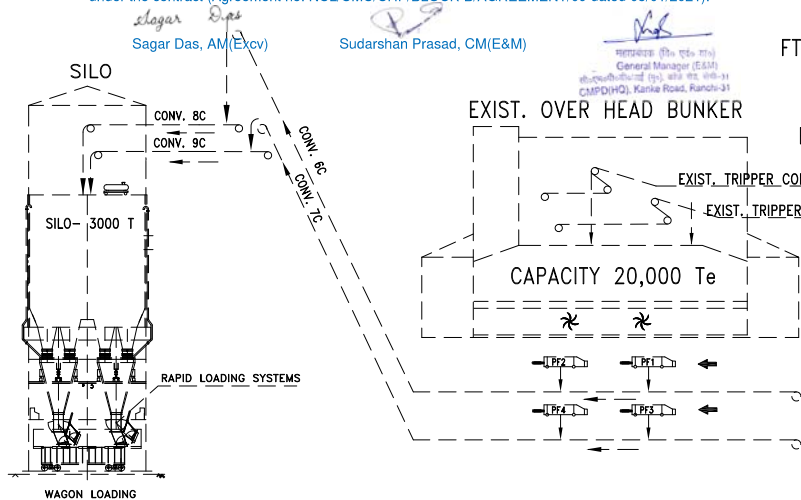

## SMCP-SEMI MOBILE CRUSHING PLANT

The drawing is 'found in order' subject to compliance of note(s) given below:  
Note(s):

- 1) Duty conditions and other constructional features of magnetic separator should conform all the requirement as mentioned in contract agreement page no. 245 & 246.
- 2) Any changes in related drawings/documents shall be incorporated in this drawing also.
- 3) All the provisions shall meet the Contract Agreement requirement.

Approval of the contractor's drawings or work by engineer shall not relieve the contractor of any of his responsibilities and liability under the contract (Agreement no. NCL/CMC/CHP/BLOCK-B/AGREEMENT/09 dated 05/01/2021)."
