6.1 Evaluation and comparison of bids

The bids shall be evaluated on the basis of final landed cost which shall be arrived as under and as per format given in BOQ of e-Tender:

For Goods manufactured within India

i)	The price of the goods quoted Ex-works
ii)	GST which will be payable on the goods if the contract is awarded.
iii)	The charges for inland transportation, insurance and other local services required for delivering the goods at the desired destination as specified in the BOQ.
iv)	The installation, commissioning and training charges including any incidental services, if any as given in Scope of Works of NIT
v)	Deviation to NIT payment terms.

The comparison between the offers shall be made on FOR destination on Landed cost basis.

Price preference to Local suppliers as per Make in India procurement policy of Govt. of India and Department for Promotion of Industry and Internal Trade (DPIIT) order No. P-45021/2/2017-PP (BE-II) dated 04th June, 2020

A. Eligibility of 'Class-I local supplier', 'Class-II local supplier' and 'Non-local supplier'

- Only Class-I local suppliers are eligible to participate in tender if there is sufficient local capacity and local competition irrespective of the purchase value. L1 bidder amongst Class-I local suppliers shall be awarded contract subject meeting other requirements as per tender.
- In procurement of all goods or services not covered above, with the estimated value of purchases less than Rs. 200 Crore, only 'Class-I local supplier' and 'Class-II local supplier', shall be eligible to bid.

B. Estimated value of procurement of tendered goods is below Rs. 200 Crore and it is not a Global Tender:

- Tendered goods are not divisible in nature, the following procedure shall be followed to evaluate L1 and award of contract:**
 - Among all qualified bids, the lowest bid will be termed as L1. If L1 is from a Class-I local supplier, the contract will be awarded to L1.
 - If L1 is not from a Class-I local supplier, the lowest bidder among the Class-I local

	HEAVY ENGINEERING CORPORATION LIMITED
	PROJECT DIVISION

suppliers, will be invited to match the L1 price subject to local supplier's quoted price falling within the margin of purchase preference, and the contract shall be awarded to such local supplier subject to matching the L1 price.

- c. In case such lowest eligible Class-I local supplier fails to match the L1 price, the Class-I local supplier with the next higher bid within the margin of purchase preference shall be invited to match the L1 price and so on and contract shall be awarded accordingly. In case none of the Class-I local suppliers within the margin of purchase preference matches the L1 price, then the contract may be awarded to the L1 bidder.

For more clarity in this regard, following table is furnished:

Quantity of Tendered goods	Price quoted by Local suppliers	Finalization of tender
Cannot be Split	L1 is Class-I local supplier	Full Order on Class-I Local supplier
Cannot be Split	Not L1 but Class-I local supplier within L1+20%	Full Order on Class-I Local supplier subject to matching L1 price

Definitions of terms applicable to this clause

'Local content ' means the amount of value added in India which shall be the total value of the item procured (excluding net domestic indirect taxes) minus the value of imported content in the item (including all customs duties) as a proportion of the total value, in percent.

'Class-I Local supplier' means a supplier or service provider whose goods or services offered for procurement, has local content equal to or more than 50% .

'Class-II local supplier' means a supplier or service provider, whose goods or services offered for procurement, has local content equal to or more than 20% but less than 50%.

'Non-Local supplier' means a supplier or service provider, whose goods or services offered for procurement, has local content less than or equal to 20%.

'L1' means the lowest tender or lowest bid or the lowest quotation received in this tender, bidding process or other procurement solicitation as adjudged in the evaluation process as per the tender or other procurement solicitation .

'Margin of purchase preference' means the maximum extent to which the price quoted by a Class-I local supplier may be above the L1 for the purpose of purchase preference.

C. Verification of local content

- i. The 'Class-I local supplier'/ 'Class-II local supplier' at the time of tender, bidding or solicitation shall be required to provide self certification that the item offered meets the minimum local content and shall give details of the location(s) at which the local value addition is made. (Annexure-5)
- ii. In cases of procurement for a value in excess of 10 crores, the local supplier shall be required to provide a certificate from the statutory auditor or cost auditor of the company (in the case of companies) or from a practicing cost accountant or practicing chartered accountant (in respect of suppliers other than companies) giving the percentage of local content.
- iii. False declarations will be in breach of the Code of Integrity under Rule 175(1)(i)(h) of the General Financial Rules for which a bidder or its successors can be debarred for up to

HEAVY ENGINEERING CORPORATION LIMITED

PROJECT DIVISION

two years as per Rule 151 (iii) of the General Finance Rules along with such other actions as may be permissible under law.

- iv. A supplier who has been debarred by any procuring entity for violation of the order of the Department for Promotion of Industry and Internal Trade (DPIIT) order No. P-45021/2/2017- PP (BE-II) dated 04th June, 2020 shall not be eligible for preference under the said order for procurement by any other procuring entity for the duration of the debarment. The debarment for such other procuring entities shall take effect prospectively from the date on which it comes to the notice of other procurement entities, in the manner prescribed in the order of the Department for Promotion of Industry and Internal Trade (DPIIT) order No. P- 45021/2/2017-PP (BE-II) dated 04th June, 2020.

D. “Class-II local supplier” will NOT get purchase preference in any procurement.

Annexure -3
Instructions for Online Bid Submission

The bidders are required to submit soft copies of their bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

More information useful for submitting online bids on the CPP Portal may be obtained at: <https://eprocure.gov.in/eprocure/app>.

REGISTRATION

- (i) Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL: <https://etenders.gov.in/eprocure/app>) by clicking on the link "Online bidder Enrollment" on the CPP Portal which is free of charge.
- (ii) In case of any clarification please contact M/s NIC, before the schedule time of the submission of bid. Contact Person:- **Shri Kushal Kumar: 09852923855/ 7903884318**
- (iii) As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
- (iv) Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
- (v) Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (Class II or Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g. Sify / nCode / eMudhra etc.), with their profile.
- (vi) Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to
ensure that they do not lend their DSC's to others which may lead to misuse.
- (vii) Bidder then logs in to the site through the secured log-in by entering their user ID / password and the password of the DSC / e-Token.

SEARCHING FOR TENDER DOCUMENTS

- i) There are various search options built in the CPP Portal, to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.
- ii) Once the bidders have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.

	HEAVY ENGINEERING CORPORATION LIMITED
	PROJECT DIVISION

- iii) The bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification / help from the Helpdesk.

PREPARATION OF BIDS

- i) Bidder should take into account any corrigendum published on the tender document before submitting their bids.
- ii) Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.
- iii) Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS / RAR formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.
- iv) To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use "My Space" or "Other Important Documents" area available to them to upload such documents. These documents may be directly submitted from the "My Space" area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

Note: My Documents space is only a repository given to the Bidders to ease the uploading process. If Bidder has uploaded his Documents in My Documents space, this does not automatically ensure these Documents being part of Technical Bid.

SUBMISSION OF BIDS

- i) Bidder should log into the site well in advance for bid submission so that they can upload the bid in time i.e. on or before the bid submission time. Bidder will be responsible for any delay due to other issues.
- ii) The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.
- iii) Bidder has to select the payment option as "offline" to pay the tender fee / EMD as applicable and enter details of the instrument.
- iv) Bidder should prepare the EMD as per the instructions specified in the tender document. The original should be posted/couriered/given in person to the concerned official, latest by as specified in the tender documents. The details of the DD / any other accepted instrument, physically sent, should tally with the details available in the scanned copy and the data entered during bid submission time. Otherwise the uploaded bid will be rejected.
- v) Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. If the price bid has been given

HEAVY ENGINEERING CORPORATION LIMITED

PROJECT DIVISION

as a standard BOQ format with the tender document, then the same is to be downloaded and to be filled by all the bidders. Bidders are required to download the BOQ file, open it and complete the white coloured (unprotected) cells with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BOQ file is found to be modified by the bidder, the bid will be rejected.

- vi) The server time (which is displayed on the bidders' dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.
- vii) All the documents being submitted by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128 bit encryption technology. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key. Further this key is subjected to asymmetric encryption using buyers/bid openers public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized bid openers.
- viii) The uploaded tender documents become readable only after the tender opening by the authorized bid openers.
- ix) Upon the successful and timely submission of bids (i.e. after Clicking "Freeze Bid Submission" in the portal), the portal will give a successful bid submission message & a bid summary will be displayed with the bid no. and the date & time of submission of the bid with all other relevant details.
- x) The bid summary has to be printed and kept as an acknowledgement of the submission of the bid. This acknowledgement may be used as an entry pass for any bid opening meetings.

the Contract Sum _____ [*amount in figures and words*] from a Nationalized/Scheduled Bank for due performance of the work executed by the Contractor as per the terms & conditions contained in the said Contract.

We, _____ [*name of the Bank*], of _____ [*address of the Bank*] (hereinafter called to as "Bank" which expression shall unless repugnant to the context or meaning thereof, include its successors, administrators, executors and assigns) do hereby guarantee and undertake to pay the Purchaser immediately on demand and or, all money payable by the Contractor to the extent of _____ [*amount of guarantee in figures and words*], at any time from _____ to _____ without any demur, reservation, recourse, contest or protest and/or without any reference to the Contractor. Any such demand made by the Purchaser on the Bank shall be conclusive and binding notwithstanding any difference between the Purchaser and the Contractor or any dispute pending before any Court, Tribunal, Arbitrator or any other authority. We agree that the Guarantee herein contained shall be irrevocable and shall continue to be enforceable as per the terms & conditions contained in the said Contract.

The Purchaser shall have the fullest liberty without affecting in any way the liability of the Bank under this Guarantee, from time to time, to extend the validity of time of Performance of the Contract by the Contractor. The Purchaser shall have the fullest liberty without affecting this Guarantee, to postpone, from time to time, the exercise of any powers vested in them or of any right which they might have against the Contractor, and to exercise the same at any time in any manner, and either to enforce or to forebear or to enforce any covenants contained or implied in the Contract, between the Purchaser and the Contractor or any other course or remedy or security available to the Purchaser. The Bank shall not be released of its obligations under these presents by any exercise by the Purchaser of its liberty with reference to matter aforesaid or any of them or by reason of any other act of forbearance or other acts of omission or commission on the part of the Purchaser or any other indulgence shown by the Purchaser or by any other matter or thing whatsoever which under law would, but for this provision, have the effect of relieving the Bank. The Bank also agrees that the Purchaser at its option shall be entitled to enforce this Guarantee against the Bank as a Principal Debtor in first instance, without proceeding against the Contractor and notwithstanding any security or other Guarantee that the Purchaser may have in relation to the Contractor's liabilities.

This Bank Guarantee shall be operable at State Bank of India, Commercial Branch, MECON Campus, Doranda, Ranchi.

**ENCLSURE-II****Technical Specifications for Frother & Collector for 5.0 MTPA Madhuband Washery****1.0 PREAMBLE**

BCCL has awarded "Setting up of 5.0 MTPA Madhuband NLW Coal Washery Plant in the vicinity of existing Madhuband Washery of BCCL in Block-II area, P.O. Nudkharkee, Dist. Dhanbad, Jharkhand – 828307 on BOM concept and subsequent Operation & Maintenance for 10 years" to HEC. vide Contract agreement No. 02/2012, dtd. 12.11.2012.

The broad scheme for Coal Beneficiation of Madhuband NLW Coal Washery are as detailed below:

Broad Coarse Coal Washing Scheme

BCCL shall arrange raw coal from the nearby identified mines at the rate 15000.00 tonne per day. The raw coal feed ash may vary from 42±4 % and the Technology suggested by M/s Scheck Process India Pvt. Ltd. (Technology Partner) includes raw coal crushing to -75mm, followed by deshaling in HM Cyclone and further crushing of overflow product of cyclone to -30 mm. The 30mm coal is again fed to Tertiary Crusher and the product (-13 mm) is fed to two stages of washing in HM Cyclone.

Fine Coal treatment Scheme:

The small fine slurry of Clean Coal & middling sieve bends and overflow of Cyclone classifiers are fed into flotation feed sump. The same is further pumped to flotation conditioner before feeding to froth flotation cells (3x (4x20m³)). Required quantity of frother and collector from the frother tank and collector tank will be added into the conditioner. From conditioner coal fine slurry will go to the flotation cell. The clean coal from the flotation cell will be collected along with the froth as concentrate. This will be laundered to flotation concentrate sump and from where it will be pumped to the pressure filter for de-watering. The concentrate further recovered from clean coal pressure filter is fed into the effluent sump from where it is pumped to High Rate Overhead Thickener. The tailing from the flotation cell will also be fed to High Rate Thickener.

Thickener:

Flocculant adding facilities is provided for adding to the High Rate Thickener (1W Φ35m + 1S Φ35m) for proper solid settling and to ensure clean water overflow.

Frother:

To achieve high metallurgical performance goals i.e. increased recovery, the right frother reagent has to maintain froth quality and stability. It should help optimizing

the Flotation circuit. Suitable optimization of the frother performance should minimize reagent consumption, improve recovery and improve cost performance.

The frother product should provide the right balance of flotation kinetics and strength to achieve the strength needed to support the maximum particle load while maintaining the optimal kinetics and mobility to maximize mass recovery rate.

Collector:

Froth flotation is a physio-chemical separation process in which clean coal fines are separated by air bubbles from the gangue due to difference in their hydrophobicity. The collector, for increased clean coal recovery is chosen based on their selective wetting of the type of particles to be separated. Suitable optimization of the collector performance should minimize reagent consumption, improve recovery and improve cost performance.

The frother and collector should be environment friendly to avoid the potential health hazard and to reduce environmental impacts.

2.0 SCOPE OF WORK & SERVICES**i. Supply:**

The scope of work/ services shall include “supply of chemicals/ reagents in respect of quantity and specifications for the following chemicals/ reagents at Madhuband NLW Coal Washery Plant in the vicinity of existing Madhuband Washery of BCCL in Block-II area, P.O. Nudkhurkee, Dist. Dhanbad, Jharkhand - 828307:

Sl. No.	Equipment	Item	Specification of consumables	Total Requirement
1.	Flotation Cells	Frother	9840	7.5 MT
2.		Collector	Nalflote 88003	50 MT

ii. Services:

The scope of services of the prospective bidder will also include deputation of their representative at Site during Performance Guarantee Test (PGT), adjust the dose depending on the quality of coal feed to establish the optimum dose of frother and , collector for achieving the desired performance i.e. maximize the recovery of clean coal from Flotation cells

The frother and collector should be environment friendly to avoid the potential health hazard and to reduce environmental impacts.

3.0 INSPECTION AND QUALITY CONTROL BEFORE DESPATCH

Inspection & Testing to be carried out : As per approved Quality Assurance Plan (QAP)
Inspecting Authority : HEC / BCCL /Authorised Agency

The manufacturer has to prepare a detailed Quality Assurance Plan (QAP) in the prescribed format (to be provided by HEC) and submit in triplicate for HEC/BCCL approval.

The QAP should cover all necessary checks, in addition to the following minimum requirement, related to receiving inspection of raw materials / bought-out items, in-process & final inspections.

PERFORMANCE / GUARENTEE

Successful Bidder, during PGT shall provide supervision and adjust the dose depending on the quality of coal feed to establish the optimum dose of frother and collector for achieving the desired performance i.e. maximize the recovery of clean coal from Flotation cells.

4.0 MSDS(material Safety data sheet)- The material supplied by the firm must be accompanied with MSDS. The said chemicals should be environment friendly and there should not be any adverse effect on Usage/handling of materials on environment/ human beings.
